Photo and Video Editing for SENIORS

Windows Live Photo Gallery and Movie Maker are free programs that will allow you to organize, edit and share your digital photos and videos.

With just a few mouse-clicks you can create beautiful pictures, by editing them in the user-friendly Windows Live Photo Gallery program. You can share your photos with others, for instance in an online photo album, or slide show. In Windows Live Photo Gallery you can also easily arrange your pictures and add tags to them.

With Windows Live Movie Maker you can create a professional-looking movie with your videos and photos from your (grand)children, a vacation, a recent day trip or a wedding. You can add special effects, transitions, sound, and captions to your movie. To be able to show your movie to other people, you will learn how to prepare it and send it by e-mail, burn it to a DVD, or upload it to YouTube. Finally, we will discuss how to import your videos and photos from a digital video camera, photo camera, mobile phone or other external storage device.
